

25 Presentation Slides Style Prompts

How to create presentation slides using AI:

3 Easy ways to create presentation slides with AI:

1 ChatGPT + Canva (inside GPT)

Steps:

1. Login to Canva
2. Open ChatGPT, click on + then select more, select explore apps, select Canva
3. Select Canva (in GPT) from the + Tools.
4. Paste/input your topic / notes → ask ChatGPT to create an outline.
5. Ask ChatGPT to convert the outline into slides (auto-generates a Canva deck) with the style follow the description below: [Paste in your style prompt]
6. Select the slides creation and click Open in Canva.
7. You can edit the design in Canva → or click on Share → Download as PPTX (or PDF/images).

2 Gemini + Canvas

Steps:

1. Turn on Canvas in Gemini.
2. Ask Gemini to generate slides from your topic/outline and use the style described below: [Paste in your style [prompt](#)]
3. Slides are created in Google Slides format.
4. Edit in Google Slides (or keep refining in Gemini).
5. Download as PPTX (or share link).

3 NotebookLM (Slides button)

Steps:

1. Upload sources (PDF/docs/links) into NotebookLM.
2. Ask questions / get a summary and key points.
3. Paste in the slide style prompt and click the Slides button on the right panel to generate slides.
4. Review & tweak the generated slide content.
5. Export: Slides can only be exported as PDF.

25 Presentation Slides Style Prompts

25 Presentation Style Prompts:

 <p>Business Strategy</p> <p>Our Mission To lead with innovation and excellence</p> <p>Key Objectives</p> <ul style="list-style-type: none"> ✓ Drive Growth ✓ Enhance Efficiency ✓ Achieve Sustainable <p>High-Quality Corporate</p>	<p>Prompt 1 : High-Quality Corporate Aesthetic Presentation</p> <p>Generate a high-quality abstract background presentation using deep navy blue and metallic gold gradients as the primary color scheme. Incorporate subtle geometric arrow textures to add visual depth, and apply a frosted glass overlay to create a semi-transparent, modern feel. Design deep negative space on the right side to balance the layout. Use cinematic lighting effects, including soft shadows and highlights, to achieve a sleek corporate aesthetic. Support 8K resolution and follow minimalist design principles—avoid excessive elements and keep each slide clean and uncluttered. Use a 16:9 aspect ratio suitable for landscape projection, and ensure perfect alignment of text and graphics.</p>
 <p>Company Goals</p> <p>Jump Expand Opportunities Expand Opportunities</p> <p>Spin Increase Sales!</p> <p>Morph Increase Sales!</p> <p>Improve Processes!</p> <p>Clay Stop-Motion Animation</p>	<p>Prompt 2: Clay Stop-Motion Animation Style Presentation</p> <p>Generate a complete clay stop-motion style presentation, where each slide features a lively clay model aesthetic. Include colorful clay textures (such as bright red, blue, and green), expressive characters or elements in static poses that imply motion (jumping, spinning, morphing), and soft clay-textured backgrounds. Present text as hand-shaped clay lettering. Each slide should include small static sequences to explain the content. Ensure the overall style is cute, playful, and highly interactive, with support for high-resolution output.</p>
 <p>PROJECT SUCCESS</p> <p>We did it!!</p> <p>PLAN RESCUE</p> <p>ACHIEVED!</p> <p>Comic Narrative</p>	<p>Prompt 3 : Comic Narrative Style Presentation</p> <p>Generate a complete comic-style presentation using a white background with black text as the base. Each slide should explain content in a modern Japanese manga style, featuring multi-panel comic layouts, character speech bubbles (round or cloud-shaped), dynamic motion lines (such as speed lines or impact bursts), and expressive symbols (like sweat drops or stars) to enhance storytelling. Use a vibrant color palette with red, blue, and yellow as accent colors. Design each slide as part of a continuous narrative flow, support high-resolution output, and ensure balanced text-to-image ratios to avoid visual clutter.</p>
 <p>Lesson Overview</p> <ol style="list-style-type: none"> 1. Introduction 2. Main Points 3. Conclusion <p>Review & Q&A</p> <p>Blackboard Teaching</p>	<p>Prompt 4 : Blackboard Teaching Style Presentation</p> <p>Create a complete deep-green chalkboard-style presentation using white, yellow, and pink handwritten chalk text to simulate a real classroom blackboard. Include light erasing marks, casual doodles (arrows, circles), and simple icons (stars, checkmarks). The background texture should mimic chalk dust. Vary text sizes to emphasize key points, and add visual elements such as a chalkboard frame and eraser. Structure the presentation with an introduction, main content, and summary slides. The overall style should feel relaxed and educational, support high-resolution output, and ensure all text remains clear and readable.</p>

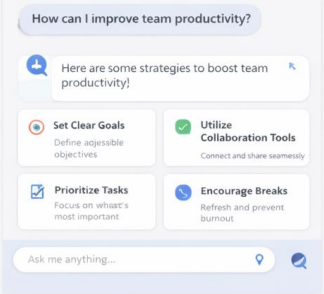

25 Presentation Slides Style Prompts

 <p>LEVEL 1 Score: 001550 Coin 332</p> <p>MISSION START!</p> <p>OBJECTIVE 1: Collect 5 Coins OBJECTIVE 2: Reach 100 Points OBJECTIVE 3: Reach Goal</p>	<p>Prompt 5 : Pixel Retro Game Style Presentation Create a pixel-art retro video game style presentation using 8-bit color palettes (red, blue, green) and blocky pixel elements. Each slide should simulate a classic arcade game screen, featuring pixel characters, brick-style background textures, and game icons (such as coins or jumping characters). Present content in a level-panel format, using pixel fonts for text. Add game-style borders and score bars to enhance the nostalgic and playful atmosphere. Support high-resolution output and ensure all text remains sharp and legible.</p>
 <p>Innovative Solutions</p> <p>Our Vision: Driving the future of technology</p> <p>Key Metrics: Growth: 150%, Users: 1M+</p> <p>AI Development, Cloud Services, Data Analytics</p>	<p>Prompt 6 : Glassmorphism Tech Startup Style Presentation Create a modern glassmorphism-style presentation using translucent panels, soft blur effects, and layered depth. Use a cool color palette (icy blue, cyan, soft purple, white) with subtle gradients. Apply floating card layouts with rounded corners and gentle drop shadows to separate content layers. Incorporate minimal line icons and thin dividers. Maintain generous spacing and strong visual hierarchy. Support high-resolution output, 16:9 aspect ratio, and ensure text remains highly readable against frosted glass surfaces.</p>
 <p>Market Insights</p> <p>Current Trends: Luxury Goods Growth, Digital Transformation, Sustainability Focus</p> <p>"Innovation distinguishes between a leader and a follower."</p> <p>24% Revenue Increase, 5.2M New Customers</p>	<p>Prompt 7: Luxury Editorial Magazine Style Presentation Generate a premium editorial-style presentation inspired by high-end business and fashion magazines. Use elegant serif headlines paired with clean sans-serif body text. Apply strong grid layouts, wide margins, and refined typography spacing. Use muted luxury tones (ivory, charcoal, champagne gold, soft taupe). Include full-bleed image sections, pull quotes, and minimalist separators. Maintain a calm, confident, and authoritative aesthetic. Support high-resolution output and ensure consistency across slides.</p>
 <p>Project Plan</p> <p>Step 1: Research (Find Ideas!), Step 2: Strategy (Set Goals), Step 3: Launch (Go!)</p> <p>TEST! 30%</p>	<p>Prompt 8 : Hand-Drawn Sketch & Marker Whiteboard Style Presentation Create a casual hand-drawn whiteboard-style presentation using sketchy marker lines, imperfect shapes, and doodle-style illustrations. Use a white background with black, blue, red, and green marker strokes. Include arrows, underlines, sticky-note visuals, and rough diagrams to explain concepts. Typography should resemble handwritten marker text. The tone should feel spontaneous, explanatory, and workshop-friendly. Support high-resolution output while preserving the organic hand-drawn feel.</p>
 <p>Vision & Strategy</p> <p>Our Mission: Driving the future of expand today</p> <p>Key Objectives: Achieve Milestones, Expand Reach, Drive Profitability</p> <p>Shaping the future of tomorrow</p>	<p>Prompt 9 : Cinematic Dark Mode Storytelling Presentation Design a cinematic dark-mode presentation using deep charcoal and near-black backgrounds with dramatic lighting accents. Use glowing highlights in electric blue, neon purple, or amber to guide attention. Apply subtle gradients, light flares, and vignette effects to create depth. Typography should be bold and minimal, with short impactful statements per slide. Use visual pacing similar to a film storyboard. Support high-resolution output and maintain strong contrast for readability.</p>

25 Presentation Slides Style Prompts

 <p>Innovative Ecosystem</p> <p>Research & Development Develop innovative ideas Conduct experiments</p> <p>Data Networks Collect & analyze information</p> <p>Business Growth Expand operations Generate revenue</p> <p>Isometric Infographic World</p>	<p>Prompt 10: Isometric Infographic World Style Presentation Generate an isometric-style presentation where concepts are visualized as a small 3D world. Use clean isometric illustrations, soft shadows, and consistent perspective angles. Apply a bright but controlled color palette (teal, coral, yellow, slate). Each slide should feel like a miniature system map or process flow. Combine labels, icons, and callouts without clutter. Support high-resolution output and maintain clarity in complex visual explanations.</p>
 <p>Strategic Overview</p> <p>Objective Define framework for growth.</p> <p>Plan Outline actions to achieve goals.</p> <p>Revenue Growth 100 200 300 400 500 Q1 Q2 Q3 Q4</p> <p>Market Share For: Metrics - Target Expansion - Optimisation - Sustainability - Management For: Metrics - Target Expansion - Optimize Efficiency - Risk Management</p> <p>Minimal Swiss Design</p>	<p>Prompt 11: Minimal Swiss Design (International Typographic Style) Presentation Create a Swiss-style minimalist presentation focused on clarity, structure, and precision. Use strict grid systems, left-aligned text, and generous white space. Apply neutral colors (black, white, grey) with one restrained accent color. Typography should be clean, modern, and highly legible. Avoid decorative elements—every visual must serve a functional purpose. Support high-resolution output and maintain consistent alignment throughout.</p>
 <p>Company Overview</p> <p>Customers: 1.2M +12% Q1</p> <p>Revenue: \$8.5M +15% Q1</p> <p>Active Projects: 42 +12% Q1</p> <p>Key Highlights - Growth: 20% Increase - Innovation: New Product Launch - Efficiency: 15% Cost Reduction</p> <p>Project Status - On Track - At Risk - Completed</p> <p>Data-First Executive Dashboard</p>	<p>Prompt 12: Data-First Executive Dashboard Style Presentation Design a data-driven executive dashboard-style presentation. Use card-based layouts, subtle dividers, and consistent spacing. Apply neutral backgrounds with accent colors to highlight key metrics. Include clean charts, progress bars, KPI blocks, and summary callouts. Typography should be professional and concise. Each slide should feel like a strategic overview screen rather than a traditional slide. Support high-resolution output and ensure charts remain crisp.</p>
 <p>Learning About Animals</p> <p>Mammals Animals that are not birds or fish</p> <p>Birds Animals with feathers and wings</p> <p>Fishes Animals that live in water</p> <p>Children-Friendly Storybook</p>	<p>Prompt 13: Children-Friendly Learning & Storybook Style Presentation Create a playful, child-friendly presentation inspired by illustrated storybooks. Use rounded shapes, soft pastel colors, friendly characters, and simple visual metaphors. Typography should be large, clear, and approachable. Use short sentences and visual storytelling instead of dense text. Maintain consistency in illustration style. Support high-resolution output while keeping visuals simple and engaging for young audiences.</p>
 <p>Artificial Intelligence</p> <p>Neural Networks Machine Learning Data Mining Natural Language Processing Computer Vision Robotics Autonomous Systems Blockchain Quantum Computing Space Exploration Nanotechnology Biotechnology Artificial Intelligence Cybersecurity Cloud Computing Big Data Internet of Things Wearable Devices Smart Homes Self-Driving Cars Drones 3D Printing Virtual Reality Augmented Reality Blockchain Quantum Computing Space Exploration Nanotechnology Biotechnology Artificial Intelligence Cybersecurity Cloud Computing Big Data Internet of Things Wearable Devices Smart Homes Self-Driving Cars Drones 3D Printing Virtual Reality Augmented Reality</p> <p>Futuristic AI Blueprint</p>	<p>Prompt 14: Futuristic AI System Blueprint Style Presentation Generate a futuristic AI blueprint-style presentation using dark backgrounds with neon wireframes, grid overlays, and schematic diagrams. Use cyan, green, and white accents to represent data flow and system logic. Include labeled modules, flow arrows, and node-based structures. Typography should feel technical yet readable. The overall style should resemble a sci-fi control interface. Support high-resolution output and ensure visual clarity.</p>

25 Presentation Slides Style Prompts

 <p>Project Roadmap</p> <p>Timeline & Journey Mapping</p>	<p>Prompt 15 : Timeline & Journey Mapping Style Presentation Create a journey-based presentation structured as a visual timeline. Use horizontal or vertical flow layouts to show progression, milestones, and phases. Apply soft gradients or section-based color changes to distinguish stages. Include icons, checkpoints, and short explanatory text blocks. Maintain visual rhythm and narrative continuity across slides. Support high-resolution output and ensure consistent alignment.</p>
 <p>AI Assistant UI</p>	<p>Prompt 16: AI Assistant / Copilot UI Style Presentation Create a presentation that mimics a modern AI assistant or copilot interface. Use chat bubbles, side panels, prompt cards, and response blocks to present content as a conversation. Apply a clean UI color palette (white, light grey, soft blue or purple accents). Include subtle UI dividers, cursor indicators, and system icons. Typography should be modern and highly legible. Maintain a 16:9 layout with strong visual hierarchy and high-resolution output.</p>
 <p>Workshop Sticky Notes</p>	<p>Prompt 17: Workshop Sticky Notes & Kanban Board Style Presentation Design a workshop-style presentation inspired by sticky notes and Kanban boards. Use colorful sticky-note blocks arranged in columns (To Do, In Progress, Done). Include handwritten-style fonts, tape visuals, arrows, and quick annotations. Background should resemble a whiteboard or light corkboard. The style should feel collaborative, hands-on, and interactive. Support high-resolution output and keep layouts clear and structured.</p>
 <p>Product UI Walkthrough</p>	<p>Prompt 18: Product UI Walkthrough / App Demo Style Presentation Create a presentation that looks like a product UI walkthrough. Each slide should resemble an app screen with headers, cards, buttons, toggles, and tooltips. Use neutral backgrounds with accent colors for CTAs. Include step numbers, callouts, and zoomed-in UI highlights. The overall tone should be clean, instructional, and product-focused. Maintain consistency across slides and support high-resolution output.</p>
 <p>Visual Metaphor Storytelling</p>	<p>Prompt 19: Visual Metaphor Storytelling Style Presentation Generate a metaphor-driven presentation where abstract concepts are explained using strong visual metaphors (e.g., bridges, ladders, maps, engines, ecosystems). Use illustrative visuals with minimal text. Maintain a cohesive illustration style and color palette. Each slide should communicate one core idea clearly. Support high-resolution output and avoid visual clutter.</p>

25 Presentation Slides Style Prompts

 <p>EVERY DETAIL MATTERS. Focus on precision and excellence.</p>	<p>Prompt 20: Bold Typography / Statement-Driven Style Presentation Create a typography-led presentation where bold statements take center stage. Use oversized headlines, strong contrast, and minimal supporting visuals. Apply a limited color palette (black, white, one accent color). Use intentional spacing and dramatic pacing across slides. This style should feel confident, punchy, and memorable. Support high-resolution output and perfect text alignment.</p>
<p>Effective Communication</p> <ol style="list-style-type: none"> 1 LISTEN & ENGAGE Understand team members 2 CLARIFY & CONFIRM Address questions and concerns 3 PROVIDE FEEDBACK Offer constructive insights <p>Key Takeaways</p> <ul style="list-style-type: none"> Practice active listening Use clear and simple language Provide timely responses 	<p>Prompt 21: Corporate Training Playbook Style Presentation Design a structured corporate training playbook presentation. Use clear section headers, numbered frameworks, checklists, and summary boxes. Apply professional colors (navy, grey, muted accent colors). Include icons and separators to guide the learner. Each slide should feel instructional and repeatable. Support high-resolution output and consistent formatting.</p>
<p>Future Vision / Concept Art Style</p> 	<p>Prompt 22: Future Vision / Concept Art Style Presentation Create a future-vision presentation inspired by concept art. Use atmospheric backgrounds, soft gradients, light flares, and abstract environments. Content should feel aspirational and forward-looking. Typography should be minimal and elegant. Each slide should evoke possibility rather than detail. Support high-resolution output and cinematic composition.</p>
<p>Case Study Before-After Transformation Style Presentation</p> 	<p>Prompt 23: Case Study Before-After Transformation Style Presentation Design a before-and-after case study presentation. Use split layouts to compare "Before" vs "After" states clearly. Apply contrasting colors or visual treatments to differentiate phases. Include simple metrics, icons, and outcome highlights. Maintain clarity and visual balance. Support high-resolution output and consistent slide structure.</p>
<p>Icon-Driven Visual Explainer</p> 	<p>Prompt 24: Icon-Driven Visual Explainer Style Presentation Create a presentation where icons are the primary storytelling device. Use large, consistent iconography paired with short text labels. Maintain a clean background and cohesive color system. Icons should guide the viewer through processes, systems, or concepts. Support high-resolution output and ensure icons remain sharp and readable.</p>
<p>Founder Pitch / Investor Narrative</p> <p>Changing the Future of Work.</p> <ul style="list-style-type: none"> Solving a \$50B market problem Innovative technology solution Positioned for rapid growth 	<p>Prompt 25: Founder Pitch / Investor Narrative Style Presentation Generate a founder-style pitch presentation focused on storytelling and clarity. Use concise slides with one key message each. Combine strong headlines, simple visuals, and selective data points. Apply a clean, modern aesthetic suitable for investors. Maintain visual rhythm and logical flow from problem to solution to vision. Support high-resolution output and 16:9 layout.</p>

Updates as of March 2026:

Another way to create presentation slides using AI
Notebook + AiPPT

Steps:

1 Deep research with NotebookLM

Upload your sources like:

- PDFs
- Documents
- Notes

NotebookLM analyzes everything and generates a structured markdown summary you can use for presentations.

2 Copy from NotebookLM → Paste into <http://aippt.com>

NotebookLM organizes the information into a clear format.

Copy the structured content and paste it into AiPPT's "Paste Text or Markdown" feature.

AiPPT instantly understands the structure and turns it into ready-to-use slides.

3 Choose a template

AiPPT offers 200,000+ presentation templates.

Pick a design you like and your slides are automatically formatted.

The result: a polished presentation ready for work, school, client meetings, or content creation all created in minutes.
