VOICE CLONING USING MINIMAX

☰ Voice Clone 10,000 

Voice Cloning

Clone a voice using as little as a 10-second clean voice clip.

Import your Voice

Add or drop a file
Up to 20MB each

or

Record audio
10-60 seconds long

Uploaded Samples 0/10

i Please upload a clean voice recording in a quiet environment. Reverb, multiple speakers, background noise, etc., will affect the voice cloning quality.

You can use the noise separation feature to reduce audio noise, but this may also impact the detail of the voice. Therefore, it is recommended to choose the best-quality segment when selecting the material for cloning.

- 1. Click Add or drop a file**
- 2. Upload your recorded voice file**
- 3. Read the instruction below**
