

40+ Nano Banana Prompts

Studio-Quality Photo Editing Prompts

1. Refine only the main subject. Preserve edges. Enhance fine details slightly. Do not affect the surrounding area. Keep lighting and colors natural and realistic.
2. Recreate the same scene with the camera moved 15° higher for a semi top-down view. Maintain consistent lighting, color, depth, and shadows.
3. Keep the subject perfectly sharp while the background transitions into a soft professional blur. Preserve original lighting and colors.
4. Apply a cinematic color grade with gentle contrast. Keep skin tones natural and realistic.
5. Transform the scene from daytime to realistic nighttime using moonlight highlights, cool shadows, and subtle warm artificial lights.
6. Keep the subject sharp while converting background lights into soft circular bokeh with a gentle cinematic glow.

Product Photography Prompts

7. Show the product worn or displayed in a close-up with clean cinematic lighting and strong texture detail.
8. Place the product on a clean studio base with crisp shadows and premium high-contrast lighting.
9. Present the product in a cozy lifestyle setting with warm sunlight and soft natural shadows.
10. Display the product in a clean e-commerce style on a neutral background with realistic shadows.
11. Place the product on a natural stone surface with soft window light and calm spa-inspired styling.
12. Present the product in a futuristic environment with subtle glow, metallic textures, and sleek design.

Infographic Prompts

13. Create an infographic that breaks down a process step by step with clear visuals and labels.
14. Design a beginner-friendly infographic explaining five core concepts with simple illustrations.
15. Build a comparison infographic highlighting key differences, features, and use cases.

40+ Nano Banana Prompts

16. Visualize a simple routine with clear steps, timing, and recommended actions.
17. Create a quick-facts infographic displaying essential data points and one key insight per item.
18. Design a budgeting infographic showing saving, spending, goals, and daily habits.

Brand Identity & Visual Systems

19. Create a mini branding kit including color palette, font pairings, icon options, and a social header.
20. Develop a full brand identity system with logo versions, typography, colors, icons, and design rules.
21. Show realistic brand mockups on business cards, stationery, banners, and presentation slides.
22. Produce brand guidelines covering spacing rules, usage rules, grid systems, and layout templates.
23. Display the brand across signage, packaging, apparel, and merchandise with a cohesive style.
24. Create a starter brand kit with logo updates, monochrome versions, social assets, and merch concepts.

UI/UX & Web Design Prompts

25. Design three core mobile app screens with clear hierarchy, spacing, icons, and realistic UI depth.
26. Create a modern SaaS dashboard with sidebar navigation, KPIs, calendar, task lists, and clean layout.

Multilingual Image Editing Prompts

27. Translate all visible text into the target language while preserving layout and design structure.
28. Rewrite text to sound more natural while keeping the same language and similar length.
29. Replace all text in a poster with the target language while keeping typography and alignment intact.

40+ Nano Banana Prompts

30. Translate product labels while maintaining icon placement, spacing, and design consistency.

Typography Logo Prompts

31. Create futuristic geometric wordmarks using clean shapes and minimal monoline styling.

32. Design expressive calligraphy-style word logos with hand-drawn brush strokes.

33. Generate bold typographic logos using distortion, stacking, slicing, and negative space.

34. Create soft rounded wordmarks with playful curves and friendly character.

Math & Reasoning Visual Prompts

35. Explain a math concept using whiteboard-style diagrams, labels, and step-by-step visuals.

36. Visualize a finance concept using formulas, arrows, charts, and a worked example.

37. Explain fractions visually using grids, shapes, and handwritten-style annotations.

Text Art Rendering Prompts

38. Render a word in realistic paper-quilling style with layered coils, depth, and soft shadows.

39. Create dimensional lettering with realistic material depth and light reflections.

40. Form a word using decorative swirling patterns with consistent color and depth.

Aspect Ratio Conversion Prompts

41. Convert the image to 1:1 by reducing background while keeping the subject position unchanged.

42. Convert the image to 4:3 by reducing background while keeping the subject position unchanged.

43. Convert the image to 5:3 by reducing background while keeping the subject position unchanged.

44. Convert the image to 2.39:1 by reducing background while keeping the subject position unchanged.

45. Convert the image to 4:1 by reducing background while keeping the subject position unchanged.

40+ Nano Banana Prompts

46. Convert the image to 9:16 by reducing background while keeping the subject position unchanged.
